

OFFICE OF GROUND WATER
AND DRINKING WATER

When is it?

SEP 23, 2020
2-3 PM EDT

How do I register?

Through the following link:

<https://attendee.gotowebinar.com/register/8505822361568956686>

Who should attend?

This webinar is open to water systems, states, primacy agencies, tribes, community planners, academia, and those seeking to better understand the tiering criteria and site selection requirements of the Lead and Copper Rule.

DEVELOPING SAMPLE POOLS

Lead and Copper Rule

EPA is hosting a webinar on developing sample pools for lead and copper tap water monitoring under the Lead and Copper Rule.

The webinar will discuss developing proper sampling pools in terms of quantity, quality and accuracy by conducting robust materials inventories with periodic updates to both the inventory and sample pool.

The goal of this webinar will be to provide a better understanding of how water systems can more effectively develop and maintain their sampling pools.

Where do I find more information?
